

Marmolina MG-40

The Marmolina MG-40 is a product that is chemically constituted by Calcium Carbonate which is extracted from limestone rocks, processed by dry process and for industrial use.

Advantages

The MG-40 Marmolina is a product of low oil absorption and good dispersion characteristics, which make it an excellent general mineral load.

Applications

- Manufacture of textured architectural finishes for façades.
- Manufacture of floors and abrasives.
- As loads in the construction industry.
- Concentrate for animals.
- In the agricultural industry, as corrector of acid soils to improve pH levels.
- As loads and fillers in the manufacture of soaps and detergents.

Technical Characteristics

Physical Properties

Presentation / texture: Granulated powder material.

Apparent Density: 1.80 - 1.90 g/mL.

Humidity at 105 °C: 0.5% max.

Color: Grayish white to creamy white.

Granulometry

Residue on sieve Mesh 20 (850 microns): 0.5% max.

Sieve residue 40 Mesh (425 microns): 10.0 ± 2.0%.

Sieve residue 60 Mesh (250 microns): 17% max.

Chemical Properties

Calcium, as CaCO₃: 94.0% min.

Magnesium, as MgCO₃: 2.0% max.

Total iron, as Fe₂O₃: 1.0% max.

Silicon, as SiO₂: 2.0% max.

Insoluble in HCl: 3.0% max.

Calcination losses: 39.0% - 44.0%.

Presentation: *Packing of laminated polypropylene by 50 kg.*

Durability: *Twelve (12) months in its original sealed packaging protected from moisture.*

Recommendations

It should be stored in enclosed spaces and indoors to protect them from environment and floor humidity, for which it should be stored on stowages in its original, tightly sealed package.

Technical Assistance

IMPADOC S.A. Works every day with our customers to ensure through our technical team, the optimum knowledge and use of our products for construction and the industry. If you have any concerns or suggestions, please contact the following email: asistenciatecnica@impadoc.com

The information provided in this document corresponds to characteristic product data provided by Impadoc S.A. And does not guarantee correct use by the customer. The sale is made under the approval of the customer regarding the conformity of the product with its requirements, independent of the particular uses. If there is any breach of the terms of the contract, the customer has 30 days after the dispatch to make the respective claim, provided he has stored it in optimum conditions.
